Hi there, hope you're having a great day.

I know it's a little impossible with everything going on.

 Most of all with you being such an unfuckable sad and pathetic cunt. I know life is giving you everything you deserve, staring with that extremely ugly crack whore  face. One of those faces that even a mother has difficulty loving.

Don't forget to keep on being such a miserable **bitch**, the world will keep on repaying you until your last solitary breath.

All the best, but the contrary.

Fuck you to the moon you despicable cunt!

Regarding your views on Akira Toriyama

After looking at your twitter, I found out you're the most disgusting, ugliest piece of shit I've seen in a while, and I endorse suicide for worthless, dumb and ugly people like you. You bring no value to the world, and suicide would be beneficial to humanity in your case.

Since you're too narcissistic to do that (most parasites are), I also endorse going to a hood in your neighborhood and the mob will do the same. Let's see if black gangsters are so inclusive of pansies like you?

Absolutely despicable human being, either kill yourself or get killed.

Cheers,
